

22oz copper insulated tumblers

Short description:

22oz copper vacuum insulated custom tumbler with straw

Long description:

This custom tumbler has it all. Made from double-walled stainless steel with copper vacuum insulation, it keeps liquids hot for up to six hours and cold for up to 24 hours. A scratch-resistant powder coating also helps keep condensation at bay for a comfy grip.

Our custom travel cups feature a push-on lid and convenient slide closure, as well as a reusable straw for added eco-friendliness and drinking access. The wide opening enables you to add ice cubes to your drink, ensuring it stays perfectly chilled while on the go.

Each one is available to order in five different colours and is custom printed using a digital print method to ensure a seamless wraparound design.

Looking for something a little smaller? Check out our 20oz copper tumbler.
