

Eco rolled canvas

Short description: 330gsm satin canvas art prints – made from 100% recycled materials

Long description: Turn plastic waste into profit with our eco rolled canvas prints, produced using materials made from recycled plastic bottles. Designed for hand stretching or custom framing, they offer a flexible way to sell eco-friendly canvas wall art without added bulk.

Printed on 330gsm satin-finish canvas, each piece features a smooth surface that delivers strong colour and crisp detail across a wide range of designs. Supplied unmounted, these custom canvas prints are well suited to international dropshipping, helping to keep shipping costs low while maintaining print quality.

Lightweight, durable and easy to handle, our eco rolled canvas art prints provide a practical, lower-impact option for sellers looking to expand their sustainable product offering.

Care instructions:

Keep your print out of direct sunlight and away from reflected light from mirrors, glass and other shiny surfaces.

Do not use any form of liquid or chemical products to clean your canvas, even if you have a coating. A soft brush can be used periodically to remove any settled dust.

Display it at room temperature in a stable, moisture-free environment, and keep it a safe distance from direct heat sources such as fireplaces or radiators.

Packaging:

All shipments are white-label, with no Prodigy branding on the outer packaging or on any included paperwork.

- Rigid spiral-wound cardboard tubes with plastic end caps.
