

Magazines

Short description:	Professional print on demand magazines with a matte or gloss-laminated cover
Long description:	Design and sell custom magazines with matte or glossy covers, professionally printed to ensure vibrant colours and exceptional print quality. Each one features a laminated softcover, silk-coated interior pages and flexible page counts from 18 to 500. Your magazine is sized to match your file's exact aspect ratio, so your layouts display as intended with no unwanted cropping or distortion. PUR binding – up to 50% stronger than standard EVA binding – gives each magazine a neat, squared spine that's ideal for printing titles or other details. This binding style keeps your magazines standing upright and stacking cleanly, creating a polished look whether they're on a shelf or in a display. Need guidance on file preparation? Check out our file setup guidelines.
