

Maple wood prints

Short description:

Eco friendly wooden prints

Long description:

If you'd like to offer something that's a bit different in your online store, why not include a selection of these striking prints - made on certified sustainable maple wood board.

Each of our maple wood custom panels is printed directly on to 1/2" thick maple surfaced wood, giving a warm and natural-looking print that's also eco-friendly.

The stunning wood grain shows through the light or non printed areas of the image, producing a natural warm tone and retro vintage feel.

We offer an optional white ink underlay print on the wood if you prefer a more contemporary style.
