

Slim canvas

Short description: 19mm cotton canvas art prints – stretched and finished by hand

Long description: A sleeker take on our classic canvas wall art, these slim stretched canvas art prints are produced on heavyweight 400gsm artist-grade canvas. The finely woven surface enhances detail and tonal depth, giving your designs a rich, tactile finish across everything from photography to bold, extra large canvas art.

Each custom canvas print is made to order, carefully stretched over a precision-built 19mm frame crafted from European kiln-dried knotless pine. The slimmer profile offers a more subtle, contemporary look while maintaining a clean, professional presentation. Every canvas is hand finished to ensure sharp edges, smooth corner folds and a consistently high-quality result.

Built for durability, the stretcher bars are milled with a curved profile to reduce contact with the canvas face, helping to prevent surface impressions and minimise wear over time. Finger-jointed construction improves strength and stability, while larger sizes are fitted with corner wedges to keep the canvas taut and allow for easy re-tensioning when needed.

After something a little bolder? Check out our 38mm canvas prints for a more prominent, gallery-style look.
